Task 2: Basic HR Policy

Introduction

This policy promotes professionalism, fairness, accountability, and a positive workplace.

Leave Policy

20 days annual leave, 10 days sick leave, maternity, paternity, and emergency leave subject to approval.

Code of Conduct

Employees must be respectful, punctual, honest, protect confidential information, and comply with company policies.

Work-from-Home Guidelines

Be available during work hours, maintain internet access, attend meetings, protect company data, and meet deadlines.

Policy Review

This policy should be reviewed annually.

Task 4: HR Trends Report

The Impact of Artificial Intelligence in Human Resource Management

Introduction

Artificial Intelligence (AI) is transforming HR by improving recruitment, onboarding, learning, performance management, and workforce planning while helping organizations make data-driven decisions.

Recruitment

AI screens resumes, schedules interviews, and improves hiring efficiency while reducing administrative workload.

Onboarding

Virtual assistants and automated systems help new employees understand policies and complete onboarding tasks quickly.

Performance Management

AI analyzes performance data, identifies trends, and supports objective evaluations.

Learning and Development

AI recommends personalized training based on employee skills and career goals.

Employee Engagement

AI-powered surveys and chatbots improve communication and provide HR insights.

Benefits

Benefits include faster recruitment, lower costs, improved productivity, better decisions, and personalized learning.

Challenges

Challenges include data privacy, algorithmic bias, implementation costs, job displacement concerns, and overreliance on technology.

Recommendations

Organizations should combine AI with human judgment, audit AI systems regularly, protect employee data, and train HR professionals.

Conclusion

AI is a valuable HR tool when implemented ethically and responsibly alongside human expertise.
